Gramener Insights as Stories

Text Analytics

Mine high quality actionable Insights from unstructured text

Text is everywhere

Social (Caption, Hashtags, Banner Title, CTAs)

Communication (Emails, SMS, Chats, Feedback)

Digital text(Written, Transcirbed,
Translated, Publications)

Financial documents (Earnings Call, Reports, Stock Market Tagging)

..but it does not translate to insights

01

Social media disconnect

Lack of actionable intelligence from social media activity

02

Searching relevant information is tedious

Time consuming research from massive corpora
Of information – unstructured text

03

5 Vs of big data

Big data challenge with text from conversations And surveys with insights

04

Behavioral sciences

Involve behavioral sciences and user experience Tonunderst and relevant information

05

Open market data

Market intelligence data across multiple sources Need an integrated, rounded perspective for actionability
