

Omnichannel Order Management For **Shopify**

HotWax Commerce provides retailers with the best return on their inventory by facilitating omnichannel retailing strategies such as same-day Buy Online Pick-up In Store (BOPIS), Ship From Store, and Pre-Orders in order to increase conversion rates and profitability.

SAME-DAY BUY ONLINE PICK-UP IN STORE

Use the HotWax Commerce Shopify BOPIS app in combination with the embedded POS BOPIS app to show in store inventory right on the product page, enable mixed cart checkout, and fulfill BOPIS orders, all without leaving Shopify.

SHIP FROM STORE

HotWax Commerce Ship from Store lets Shopify retailers instantly leverage all of their retail and warehouse inventory to fulfill orders fast, at the lowest shipping, using customizable routing rules.

Retailers can also display accurate shipping dates right on the product page based on a customer's location.

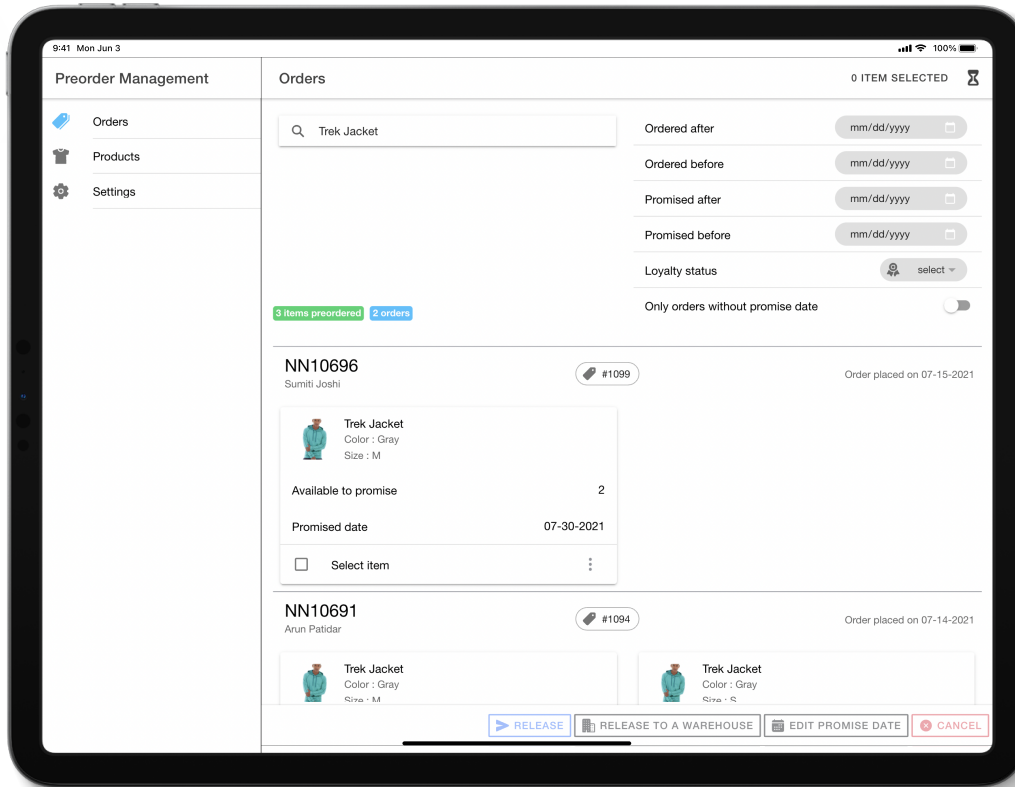

PRE ORDERS

The HotWax Commerce Shopify Pre-Order app replaces the "Sold Out" button with a "Pre-Order" button when if future inventory is coming in. It also shows shipping times right on the product page based on incoming shipment dates, so customers feel confident to buy.

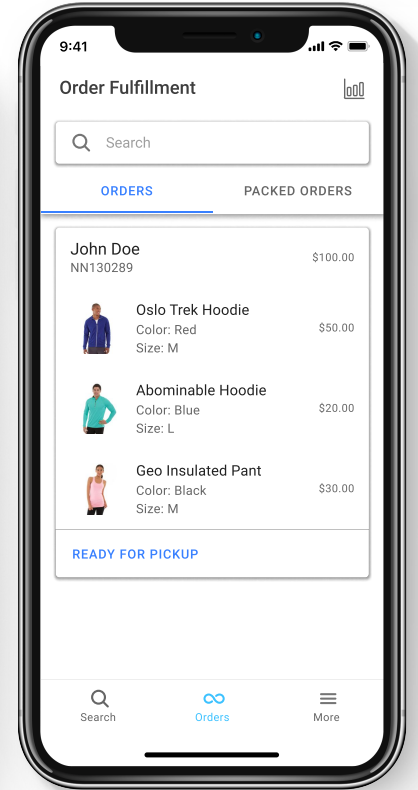

Combined with the HotWax Commerce Receiving and Pre-Order Management apps, taking and fulfilling pre-orders on Shopify becomes easier than ever.
