## PowPak Phase Select Dimming Modules

the new Vive PowPak Phase Select dimming modules – the latest addition to the Vive wireless lighting control solution. Contractors now have the flexibility to choose a PowPak dimming or switching module for virtually any commercial space type, such as restaurants, retail, lobby spaces, classrooms, or conference rooms.

**NEW**

**RMJS-PNE-DV**

**NEW**

**RMJS-PNE-DV-EM**

### Key Features:

- **PRO LED+ technology** – offers forward or reverse phase dimming down to 1% light level.
- **Simple to install** – Mounts horizontally or vertically in a 4x4 junction box, wall or ceiling.
- **Simple startup** – Setup either standalone at the module or through an app when using a Vive Wireless Hub, for ladderless configuration.
- **Easy code compliance** – Retrofit or new construction applications.
