

Middle School

One of the primary ways we communicate is electronically. We use Alma, our Student Information System. Our IT Team is working hard to ensure that not only all your Alma accounts are active, but the scholars' are active so you can use the Parent Portal and the Student Portal.

This is great for everyone, especially scholars, so they can assume greater responsibility of their learning to be LIFE Ready and Literate. After all, this is their education!

This being said, I would like you to view a tutorial for Alma that walks you through the Overview tab in Alma to view:

What your child is learning

How to email a teacher

How to see the daily attendance and daily schedule for your child

How to view the class bulletin for sharing links, documents and class news

How to access help by using the Study Guide

<https://youtu.be/bSJcsTrGOWQ>

Please reach out to me Principal.ms@igniteschool.ae or IT.support@igniteschool.ae with any questions.

Thank you for partnering with us to streamline communication and stay informed using Alma.
