

# The BrushTest® Guide to Everyday Oral Spots

## White Spots

## Red and Mixed Spots

## Ulcerated

All of these harmless-appearing spots were confirmed dysplasias.

OralCDx Laboratories gratefully acknowledges photo contributions from the following: Dr. Donald M. Cohen, Dr. Hillel Ephros, Dr. Denis P. Lynch, Dr. Stephen Porter, Dr. James J. Sciubba, Dean Crispian Scully, Dr. Sol S. Silverman, Jr., Dr. Sook B. Woo. © Copyright 2009 OralCDx Laboratories, All rights reserved.  
OralCDx is a laboratory test which is used to assist in a professional oral examination.

Detecting dysplasia and removing it can prevent oral cancer
