

O r b i t

Monumental

On the west side, a voided cylinder rotates in the northern axis on a spring of water; a mirage of the flowing river, a reference to the rotating world, and a tribute to the revolutionary water wheel and the agricultural history of San Jose

Spiritual

A circular pathway orbits over the confluence of two rivers; a meditating infinite loop for the revolving wanderers.

Experiential

On the east side, the earth opens its womb to embrace the immersive flow of nature, gravity and human mind; a museum of innovation unfolds to celebrate this flow.
