

PROJECT SUMMARY

1. Project Significance:

For the City of San Jose, a special city in Silicon Valley

2. Objectives of this Proposal

Ideas/conceptual Proposal in keeping with the parameters given by both competition brief and development program by city administrators.

3. Landmark

A landmark Tower which has minimum footprint and has several functions/components for which some uses can be assigned by the city administrators.

175 feet high, within limits prescribed.

4. Topography

This aspect to be dealt with at next stage since it will not alter the overall intention of the design concept .
