

WEB

SILICON VALLEY IS THE REGION OF INNOVATION, CIRCUITS, NETWORKS, DIGITAL PLATFORMS; OF THE WEB. THIS PROJECT TAKES THIS CONCEPT TO MATERIALIZE A NEW TYPE OF ICON, A THREE-DIMENSIONAL TIMBER FRAMEWORK ON TOP OF THE CONFLUENCE PARK IN SAN JOSÉ. INSTEAD OF RELYING ON MASS, IT CREATES A LARGE YET THIN COMPLEX BRIDGE REACHING THE TWO AVAILABLE SITES, WHERE STAIRS WORK AS STRUCTURAL ELEMENTS TO FORM BIG SCALE TRUSSES. AS TECHNOLOGY EVOLVES, THE WEB WOULD BE CONSTANTLY CHANGING ITS COMPONENTS AS A QUASI XXI CENTURY 'FUN PALACE' TO BECOME THE LANDMARK OF EVOLUTION, THE ICON OF MORE WITH LESS.
