

PROJECT SUMMARY

The Liberty Tower is a contemporary Physical expression, emerging from the past. It represents “Liberty in the 21st Century”, not just political liberty, but liberty in all possible forms which is relevant in this era. The basic layout of tower is derived from the Statue of Liberty, although the liberty tower can be seen as a modern manifestation of Statue of liberty, both vary in context. Along with the elegant tower, the project incorporates 4 maze structures ,2 huge pavilions, provisions for net zero energy, exclusive biking trails, space for public gathering and recreational activities and more.
