

San Jose is a city with a unique blend of history, culture, and innovation. The design of Prism Park aims to reflect these aspects to serve as a center of community engagement and a new symbol for San Jose. At its heart is The Global Transistor - a multifaceted icon which embodies the multicultural diversity of the city and invites the sharing of perspectives between its people. Around the icon, interactive nodes serve to enhance the icon and invite a wide array of users. This interplay of experience helps to broadcast the spirit of San Jose to the world!
