

A choreographed moment of pause, LEAPS & BOUNDS envisions a dramatic meeting of diverse elements in the center of San Jose. A sculptural form weaves through the naturalistic park, framing views and creating moments for unique experiences within the park and surrounding city.

A sculptural bridge supports a pedestrian path bringing visitors above the river confluence to a place of reflection. An arch marks the confluence from a distance, celebrating the power and dynamism of the region. Connected, the arch and the bridge form a symbol for San Jose - placing LEAPS & BOUNDS at the heart of this innovative region.
