

In difficult times people need safe spaces to play and to rest more than they need towering structures. With a focus on play in the East Side Area, The Adventure Trail, is made up of a hill slide, a water feature, interactive singing rocks, and a nature reserve. In the West Side area is the poetry forest, meadowlands and amphitheater, prioritizing relaxation. Throughout the garden edible plants can be found such as figs, currants, blackberries, and grapes. Imagine reading a poem, picking a fig and listening to the birds while strolling in this monument.
