

*Silicon Constellation* is a simple heart for all communities that form the urban sphere of Silicon Valley. The park is a monument that nurtures and celebrates human creative potential by providing a pedestrian circulatory hub and a platform for cultural recognition.

*The Egg* is a pedestrian/ bicycle rotary which holds at its core a riparian habitat designed to inspire a new paradigm of environmental stewardship amongst park visitors.

*The Spring* is a helical walkway which provides breathtaking views of Silicon Valley and acts as a focal point for interaction and cultural representation.
