

Project Summary

The Hourglass Park transforms the Arena Green West Adjacent to the SAP Center into a vibrant and inspirational attraction for the local Silicon Valley citizens and tourists from around the world. The 'Hourglass' serves as the landmark in establishing identity for San Jose and symbolizes the interconnection through time, between past, present and future through the subspaces created in the park. The hourglass park contains activities for all ages, both during the day and nighttime through its interactive in-ground light sculpture.
