

SAN JOSÉ ARENA GREEN TOWER

A unique artistic, architectural and socially friendly iconic landmark situated on the Arena Green west side of the Arena Green Park landscape. The three leaf structures stand tall with vibrant lighting representing the three mile long Guadalupe River, Los Gatos Creek and Confluence point monuments and how they all meet at one point.

The San JOSÉ Arena Green Tower fuses nature, innovation and technology in order to create a sustainable, environmentally friendly and relaxing urban space that will form part of the San Jose' brand identity and iconic landmark.
