

THE MONOLITH – SCIENCE CATHEDRAL

The open monolith is a landmark for the city of San Jose and Silicon Valley. It is an alien abstract object representing the mystery of the universe and the endless search of humankind. The black body rises from the water beneath into the sky. When reaching the final height the solid facade spreads out in all directions like the wings of an eagle revealing it's core. The secret is the timeline of all the scientific discoveries made by the humankind starting from prehistory to modern times leaving space for new discoveries to be added in the future forever and ever.
