

Project Summary

A local resident of San Jose since my parents migrated in 1972 seeing the transformation; open land Farms, Orchards, Canneries evolve to Tech. The last couple of decades the Industry have flourished into bustling energetic business. We have been bringing the **“World together with Technology”**. The best representation of Silicon Valley is having an **Inter-Active Landmark of Earth** representative of **“Connecting Access of Knowledge around the World”**. There are not many places around the earth our software, hardware, Technology has not reached. Our valley’s technology is used worldwide evolving many remote corners of the globe.
