Project summary

I present my project 'The Heart of Silicon Valley' a symbol of our shared love, for planet earth and innovative technology. Silicon Valley is the super-highway built by creative dreamers, tech geeks big and small, and all kinds of people who love to be part of a multicultural society. We are a community that understands the need to keep a balance between the head and the heart. This is the place to manifest your dreams! The sky is the limit here. Magic happens through the medium of technology.
