

WE GROW IDEAS

200 years ago Santa Clara valley grew fruits. Today we grow ideas. A true place for ideas to become reality. Many entrepreneurs all around the globe plant their ideas in this valley. It provides soil, nutrients, protection for fruits and ideas. Valley is a connecting link between different times and peoples. Valley is the symbol of this place.

The sculpture is growing naturally from the earth, from the landscape. Growing algae on the structure will clean air and provide electricity and biomass fuels. It is not only a symbol and structure but a living organism.
