

**One proposal.  
Many variables.  
Many questions.**

**How should this icon engage with the citizens and visitors to San Jose?**

**Should the icon be observed up close and at a distance, but not experienced? Should the interior spaces be used? And if so, in what way?**

**An observation deck? A skin for artistic experimentation? Interior spaces to be illuminated, adapted and modified every year as part of a Summer festival?**

**Questions that need to be addressed by everyone.**

**Only then can a variable be selected.**
