

## PROJECT SUMMARY - THE CONVERGENCE

The Convergence celebrates San Jose's innovative spirit through the five 'Rivers of Life' - Nature, Art, Technology, Culture, and Commerce. Each area of the site provides a distinctive experience that brings both excitement and relaxation. The five rivers culminate in the 200' landmark Convergence Tower. The iconic tower serves as a dynamic internally-illuminated beacon to be viewed from afar and provides stunning views. The Convergence will inspire every visitor and engage them in the experience of a lifetime. It will become the ultimate destination for Silicon Valley.
