

Inspired by *people and technology*, **ORBIT** is the union of discovery and expression, pioneering spirit and progress. An iconic landmark, destination, and art sculpture, **ORBIT** forms a ubiquitous symbol in the San Jose skyline. A dynamic urban asset in a city always looking towards the future, **ORBIT** is anchored by a visitor and event center and promontory lookout along its edges. A network of pedestrian walks suspended above the existing Arena Green Park and confluence of Los Gatos Creek and the Guadalupe River, **ORBIT** respects and enhances the public open space serving as a symbol of *access for all*.
