

ProjectStatement.doc

This Iconographic project, was designed to serve as a Landmark Icon of the City of San Jose the Cultural center of (Silicon Valley). Is a combination of Art and Architecture.

This project is about showing to the whole World what Silicon Valley represents and how it is represented; herein are the main points:

1. Where is Silicon Valley located on Planet Earth? - In America (see the Northern Hemisphere herein) Continental maps can be added.
2. What is Silicon Valley? - is an important American location (in California, in the City of San Jose, which houses one of the World's International Invention Contests,) see the sculpture, The Flag and the Eagle "says that".
3. How is Silicon Valley International Invention Contests represented within the Landmark Icon of the City of San Jose? – By the symbolic head placed on the American Flag carried by the American Eagle all over the world, which rotates on the American Flag, making it visible from different angles.

Note: The Symbolic head can rotate itself on the Flag or together with the sculpture.
