

Digital Tapestry

This 100' curved video constantly changes. The flowers are in motion and respond to climate (season, time of day) and to cultural events.

Digital Tapestry merges 21st century technology with an ancient artform and the cross-cultural language of flowers. It will serve as a backdrop for community events, civic engagement, and a collective celebration of life.

Digital Tapestry (video stills)

Please note: These are screenshot images of a constantly changing video. Flowers are in motion: growing, blooming, dropping.
