

## Project Summary

The design highlights the rich history of the place. A town which was an orchard center for agriculture products now bears a fruit of knowledge and innovators.

The unique design of structure reflects the significant historical essence of the city and its known for its responsible major player in shaping and changing the world, by producing highly calibrated innovators that lead the worlds to transform into technological advances.

TREE OF WISDOM will not only be served as a landmark, but a LIVING MACHINE that will dynamically act to inspire, learn, connect and continue sharing innovation to humanity.
