

## **Dancing Curtains**

The *Dancing Curtains* proposes five towers at Arena Green Park West with heights ranging from 175 to 200 feet. Two of the five towers will be made out of sheer blue billowing fabric while the rest will be frozen drape-like precasted concrete structure. Instead of creating enclosure, the project establishes multiple public spaces in the urban context. The programs mainly consist of a children's playground, event spaces, and public gathering area. The project creates a relaxed, comfortable, and informal stage in an urban interior, where people can not only act and perform, but also take photos, sit, eat, and lie down.
