

Design Summary

LENS(TH)ROUGH PARK

ADVENTURERS' DREAMS TO BE REVEALED THROUGH CRYSTAL LENSES

The sky and the ground are the major symbolic elements to express a dream in our design. The sky is above which we have to look up to and the ground is where we stand. We intend to reverse this perspective through a medium to offer viewers unexpected scenes. It is spherical crystal lenses which turn our perspectives upside down. Through the new perspectives altered by them, the sky is no longer difficult to reach. The sky becomes where we stand, and the ground becomes the sky. It is Lensrough Park for adventurers to find their dreams.
