

Placemaking is defined by “is a multi-faceted approach to the planning, design and management of public spaces. Placemaking capitalizes on a local community's assets, inspiration, and potential, with the intention of creating public spaces that promote people's health, happiness, and well-being.” So, let us give the community a place that nature inspired while preserving the natural features that draw us there in the first place. La Montaña del Pueblo will form out of the ground reaching towards the sky while connecting and creating a convergence point to appreciate the nature below and the rolling terrain of innovation that surrounds.
