

OPEN SOURCE TRANSFORMER

Presence

Between the River branches is the park's gravitational center, unobstructed from the freeway and separated from the arena.

Monumental Form

The inverted pyramid expresses weightlessness and transportability: the world experience facilitated by Silicon Valley.

Luminous Screen

The screen gives access to much of what technology provides. Here, it is converted into a physical place.

Pixels

The enclosing surface is composed of 26,600 "pixels", coated with an iridescent finish. Wind generated movement simulates an awakening computer screen.

Transporters

Arrayed across the site are communication kiosks linked to installations across the globe, facilitating positive human connection: the gift of Silicon Valley.
