Preliminary locations

Constellations

is made up of 5 free standing steel sculptures of animals with its constellation that you can see through. Each animals has its own symbolism and constellation: (*Rabbit- Lepus-* represents speed that makes you come very fast on your feet, reminding you to examine and use the tools we have within ourselves; *Whale- Cetus-* growth and progress and is renowned for it's soul songs that heal and enrich the soul; *Bear-Ursa Major,* protection-commitment, courage and physical strength; *Fox- Vulpecula-*ability to move fast to overcome resistance and obstacles; *Crane- Grus-* happiness, longevity and good fortune. I envision this sculptures will create a hopeful fantastical atmosphere giving hope while creating a meditative environment referencing the flora / fauna and spirit of San Jose.
