

## Site Plan

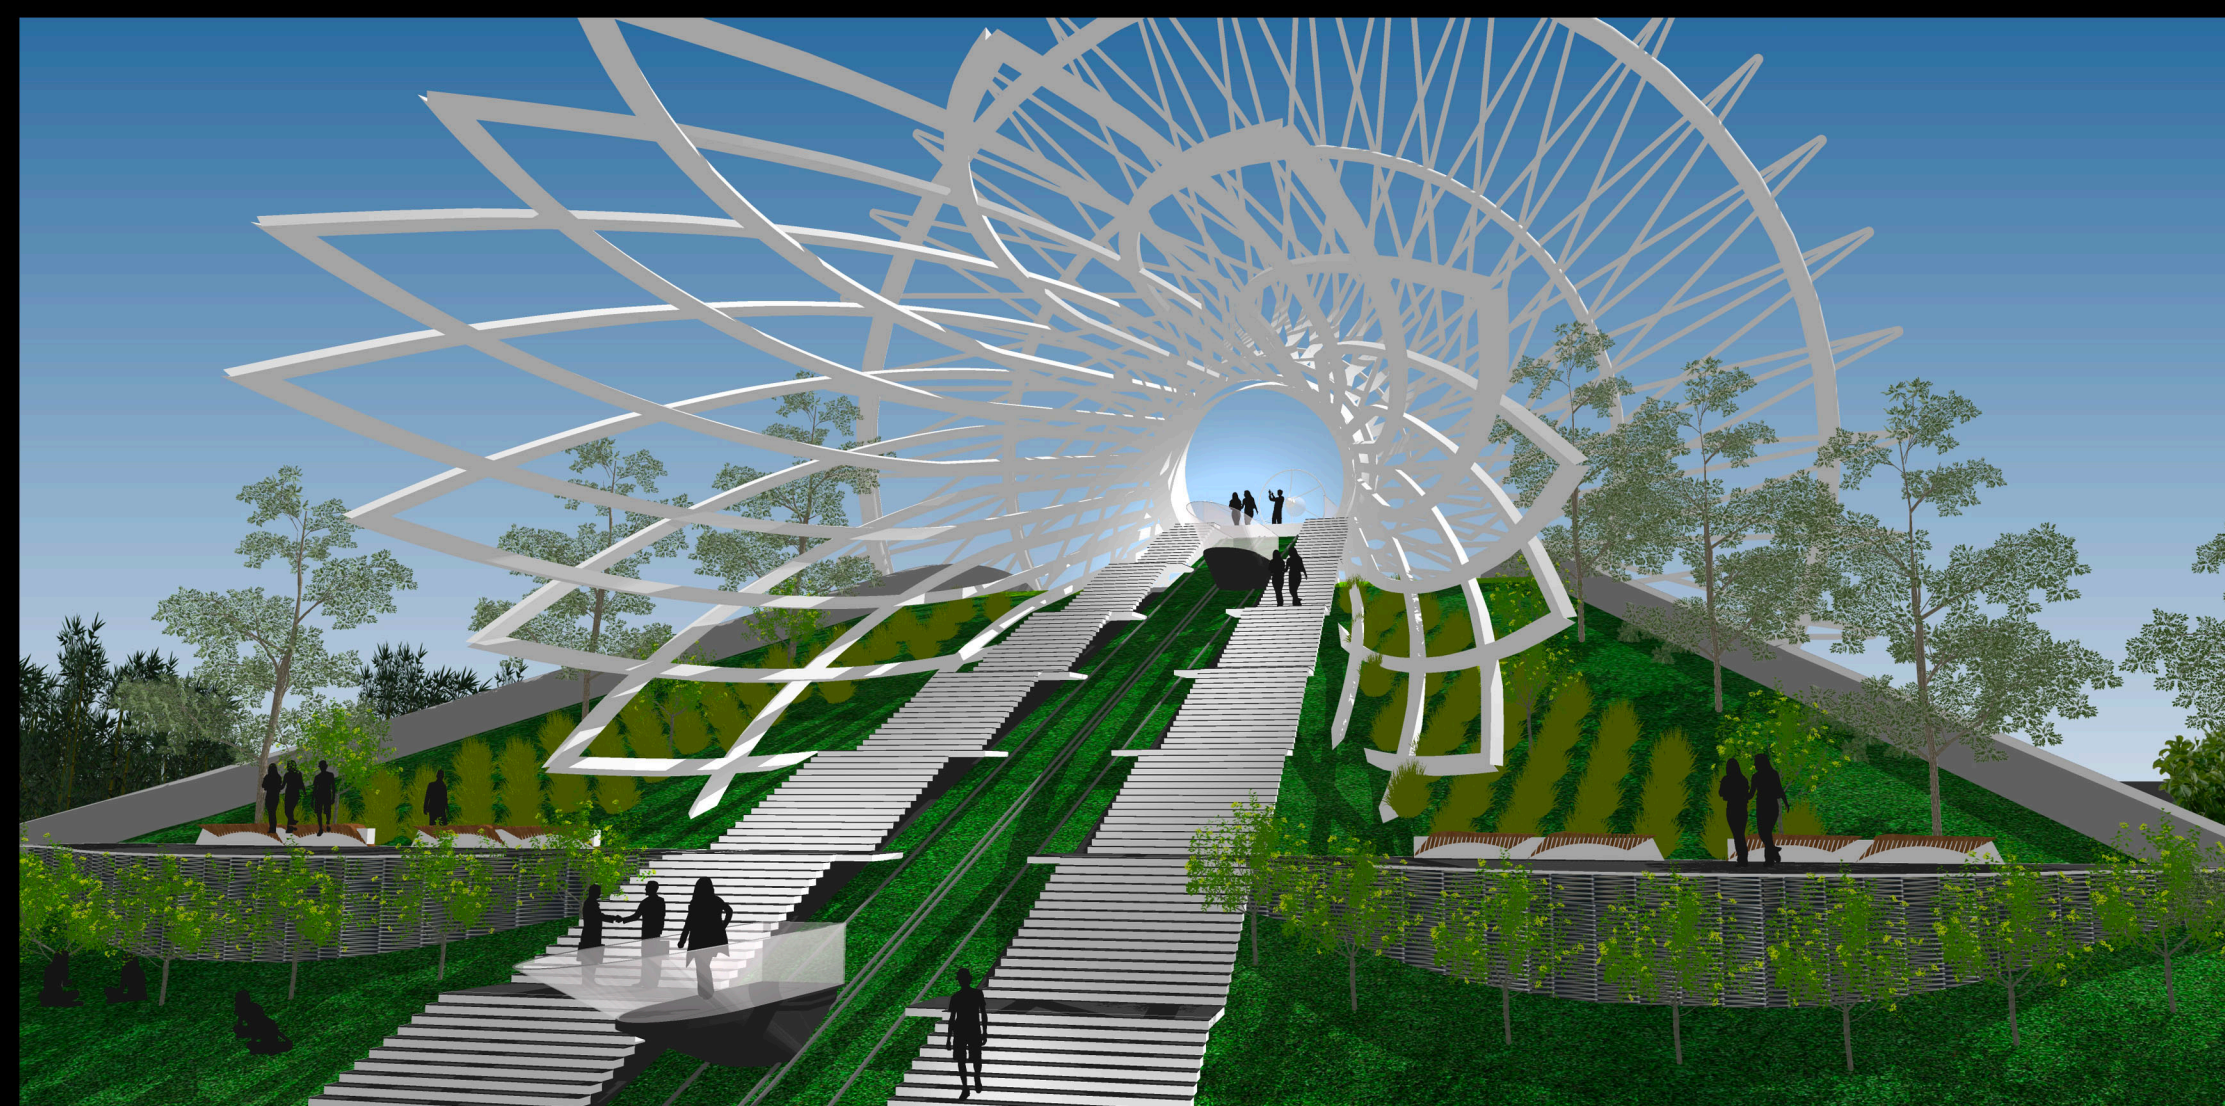

# DreamCaster

Silicon Valley, the epicenter of innovation, attracts dreamers from around the world, and DreamCaster Park is their first stop.

Dreamers are invited to broadcast their intent and arrival, as to bring one's dream to life requires it be set in motion, amplified by the echoes of those that have come before.

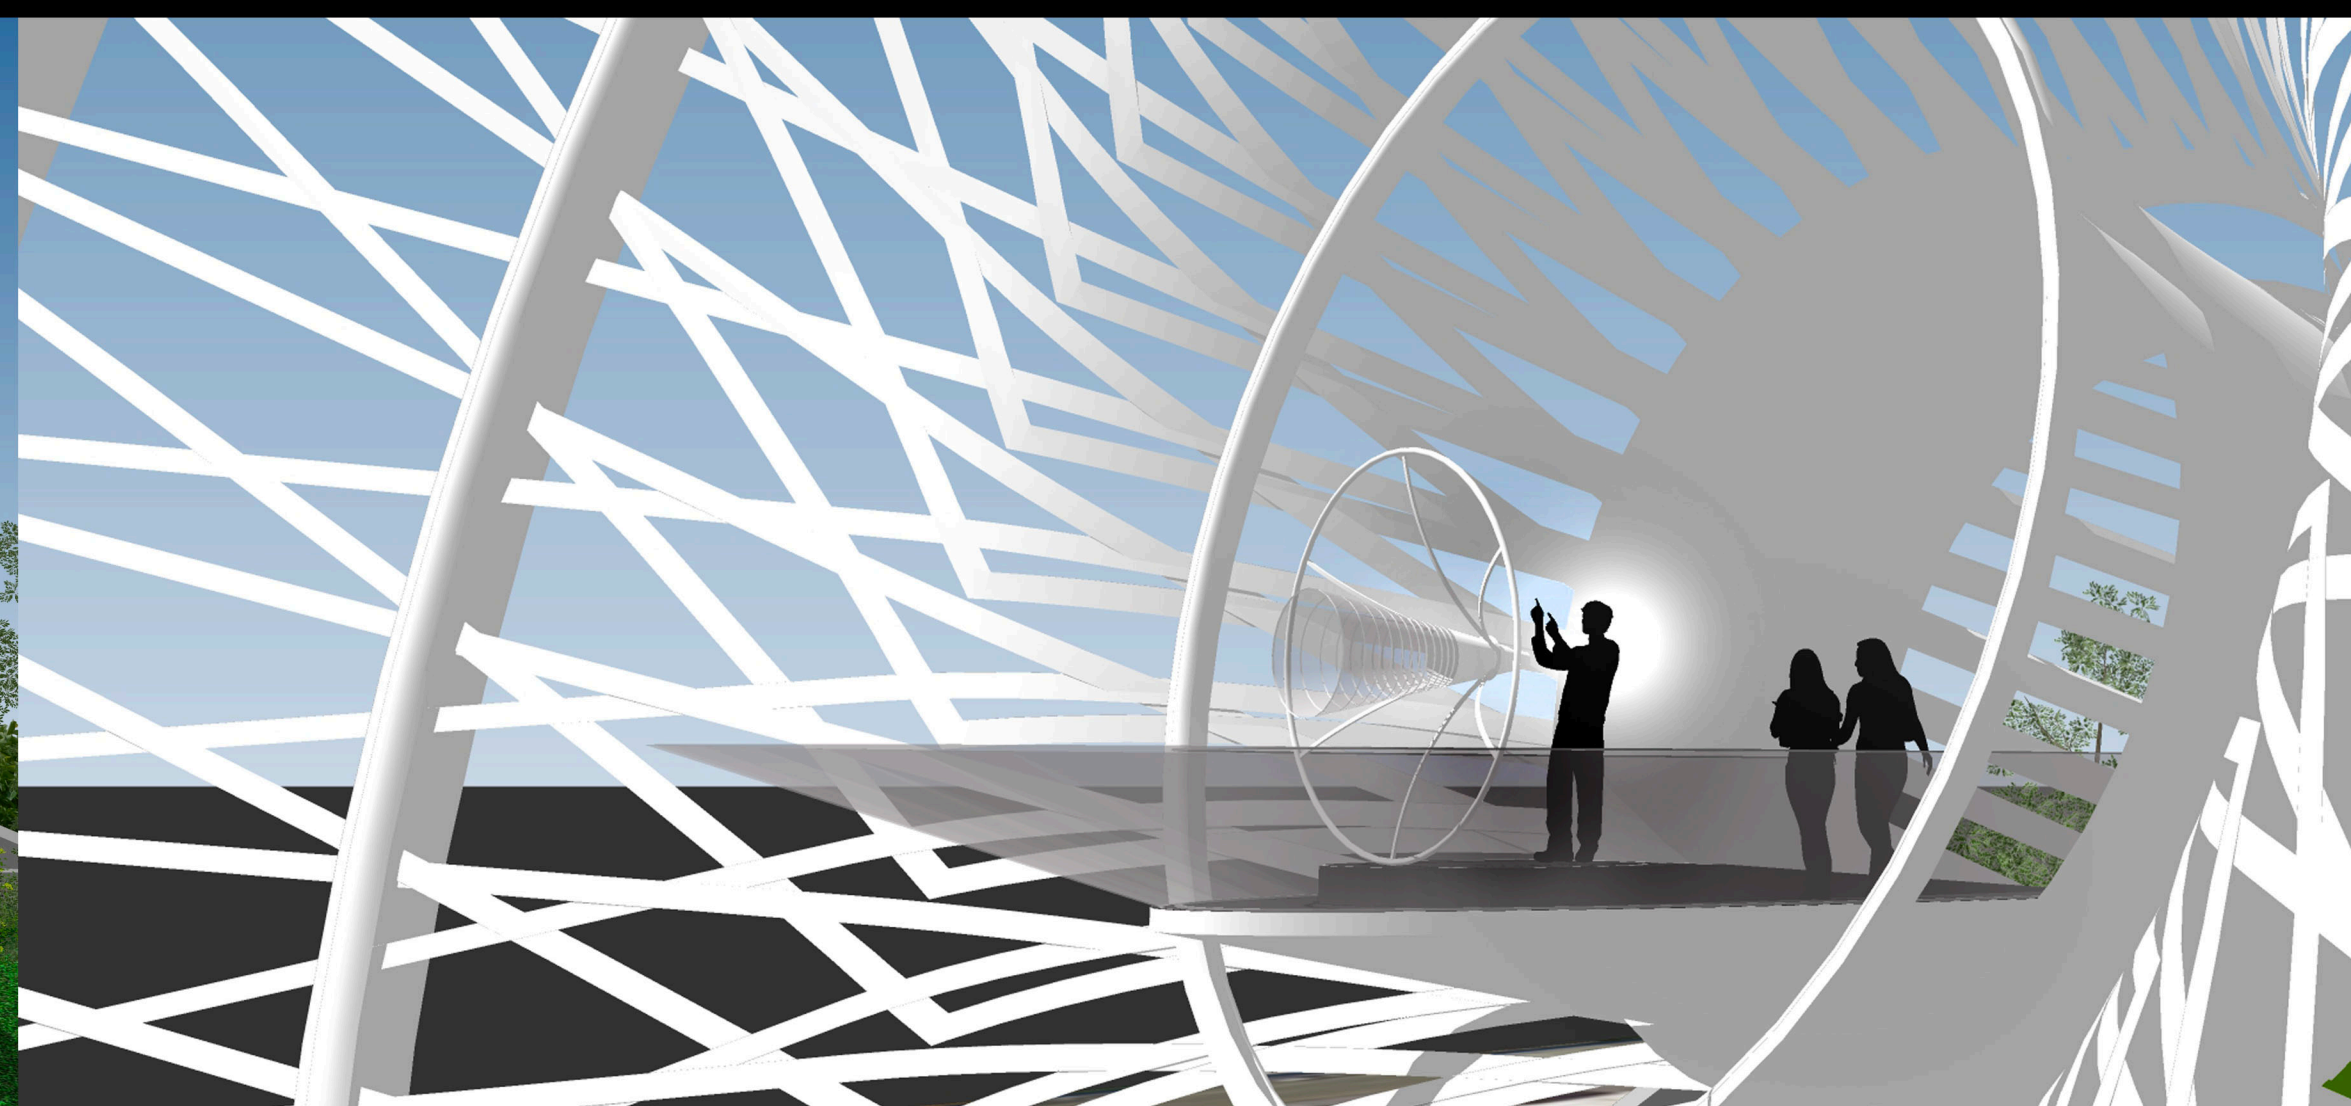

An interactive sculptural installation in the form of a megaphone icon, named The DreamCaster, metaphorically reverberates aspirations over the city.

DreamCaster Park is a revelation, a retreat, and a refuge where searchers dream and dreamers search.

## The Ascension

The Ascension is a metaphor inspiring idealists, influencing visionaries, and motivating dreamers. Here is an invitation to imagine; a challenge to strive; an objective to achieve. A funicular transports visitors to the pinnacle. No dreamer is excluded from the thrill of reaching the top.

## The Megaphone

At the zenith of the ascension is the megaphone, a larger than life creation inviting dreamers to broadcast their ideas to the world.

## The Amphitheater

Below, the amphitheater provides a stage space for gatherings and performances at the city's iconic landmark.

# DreamCaster

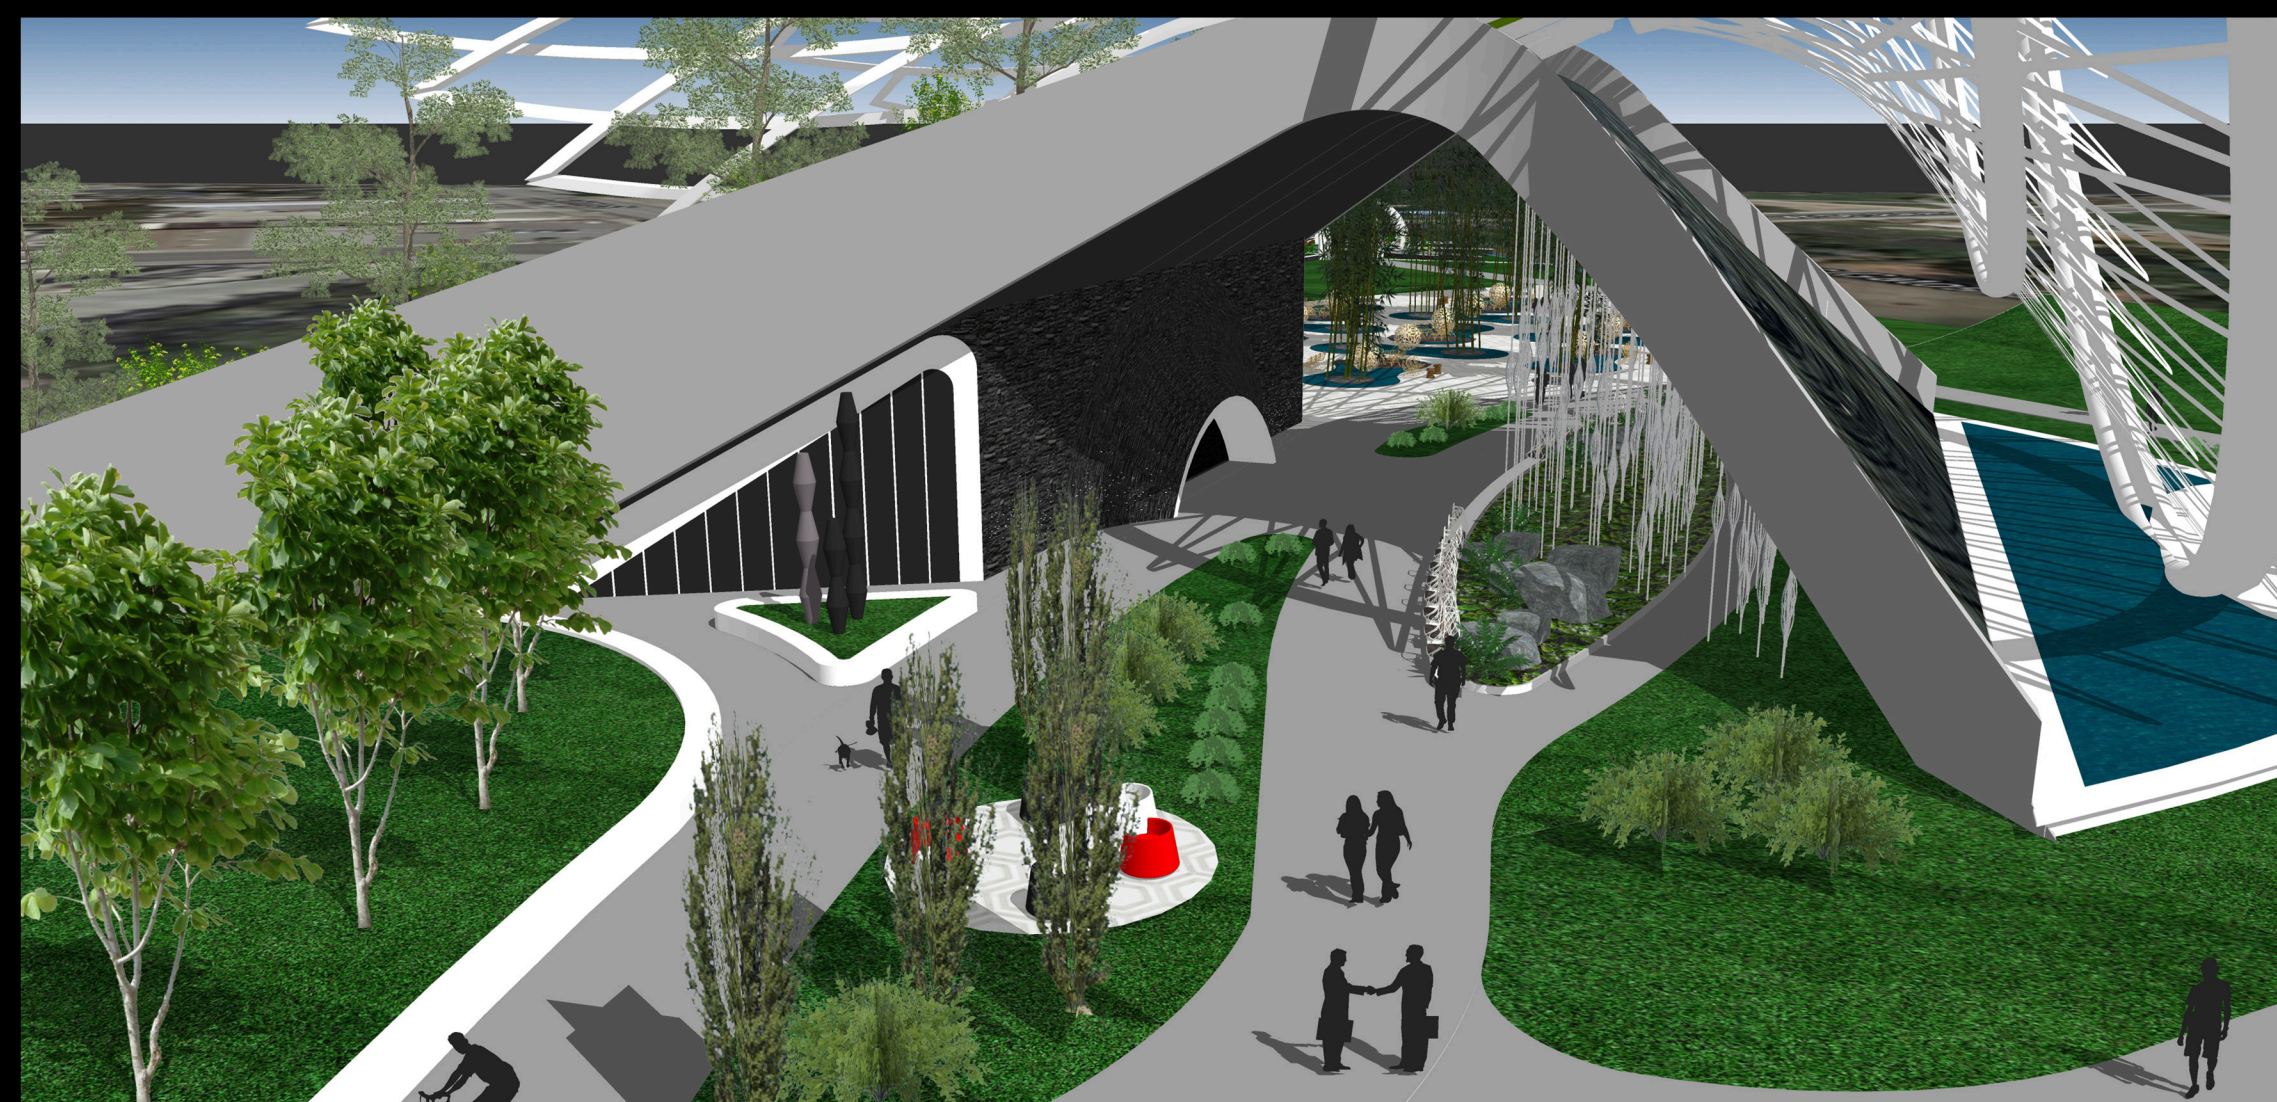

## Inspire

On an individual level, the DreamCaster inspires dreamers to make the climb to the top, to shout their ideas from the megaphone in a civic rite of passage. It is a reminder that we all have a voice in this great city.

On a grand level, the DreamCaster is a celebration of how Silicon Valley inspires the world with the work that they broadcast across the planet, amplifying dreams as only the digital multiverse can do.

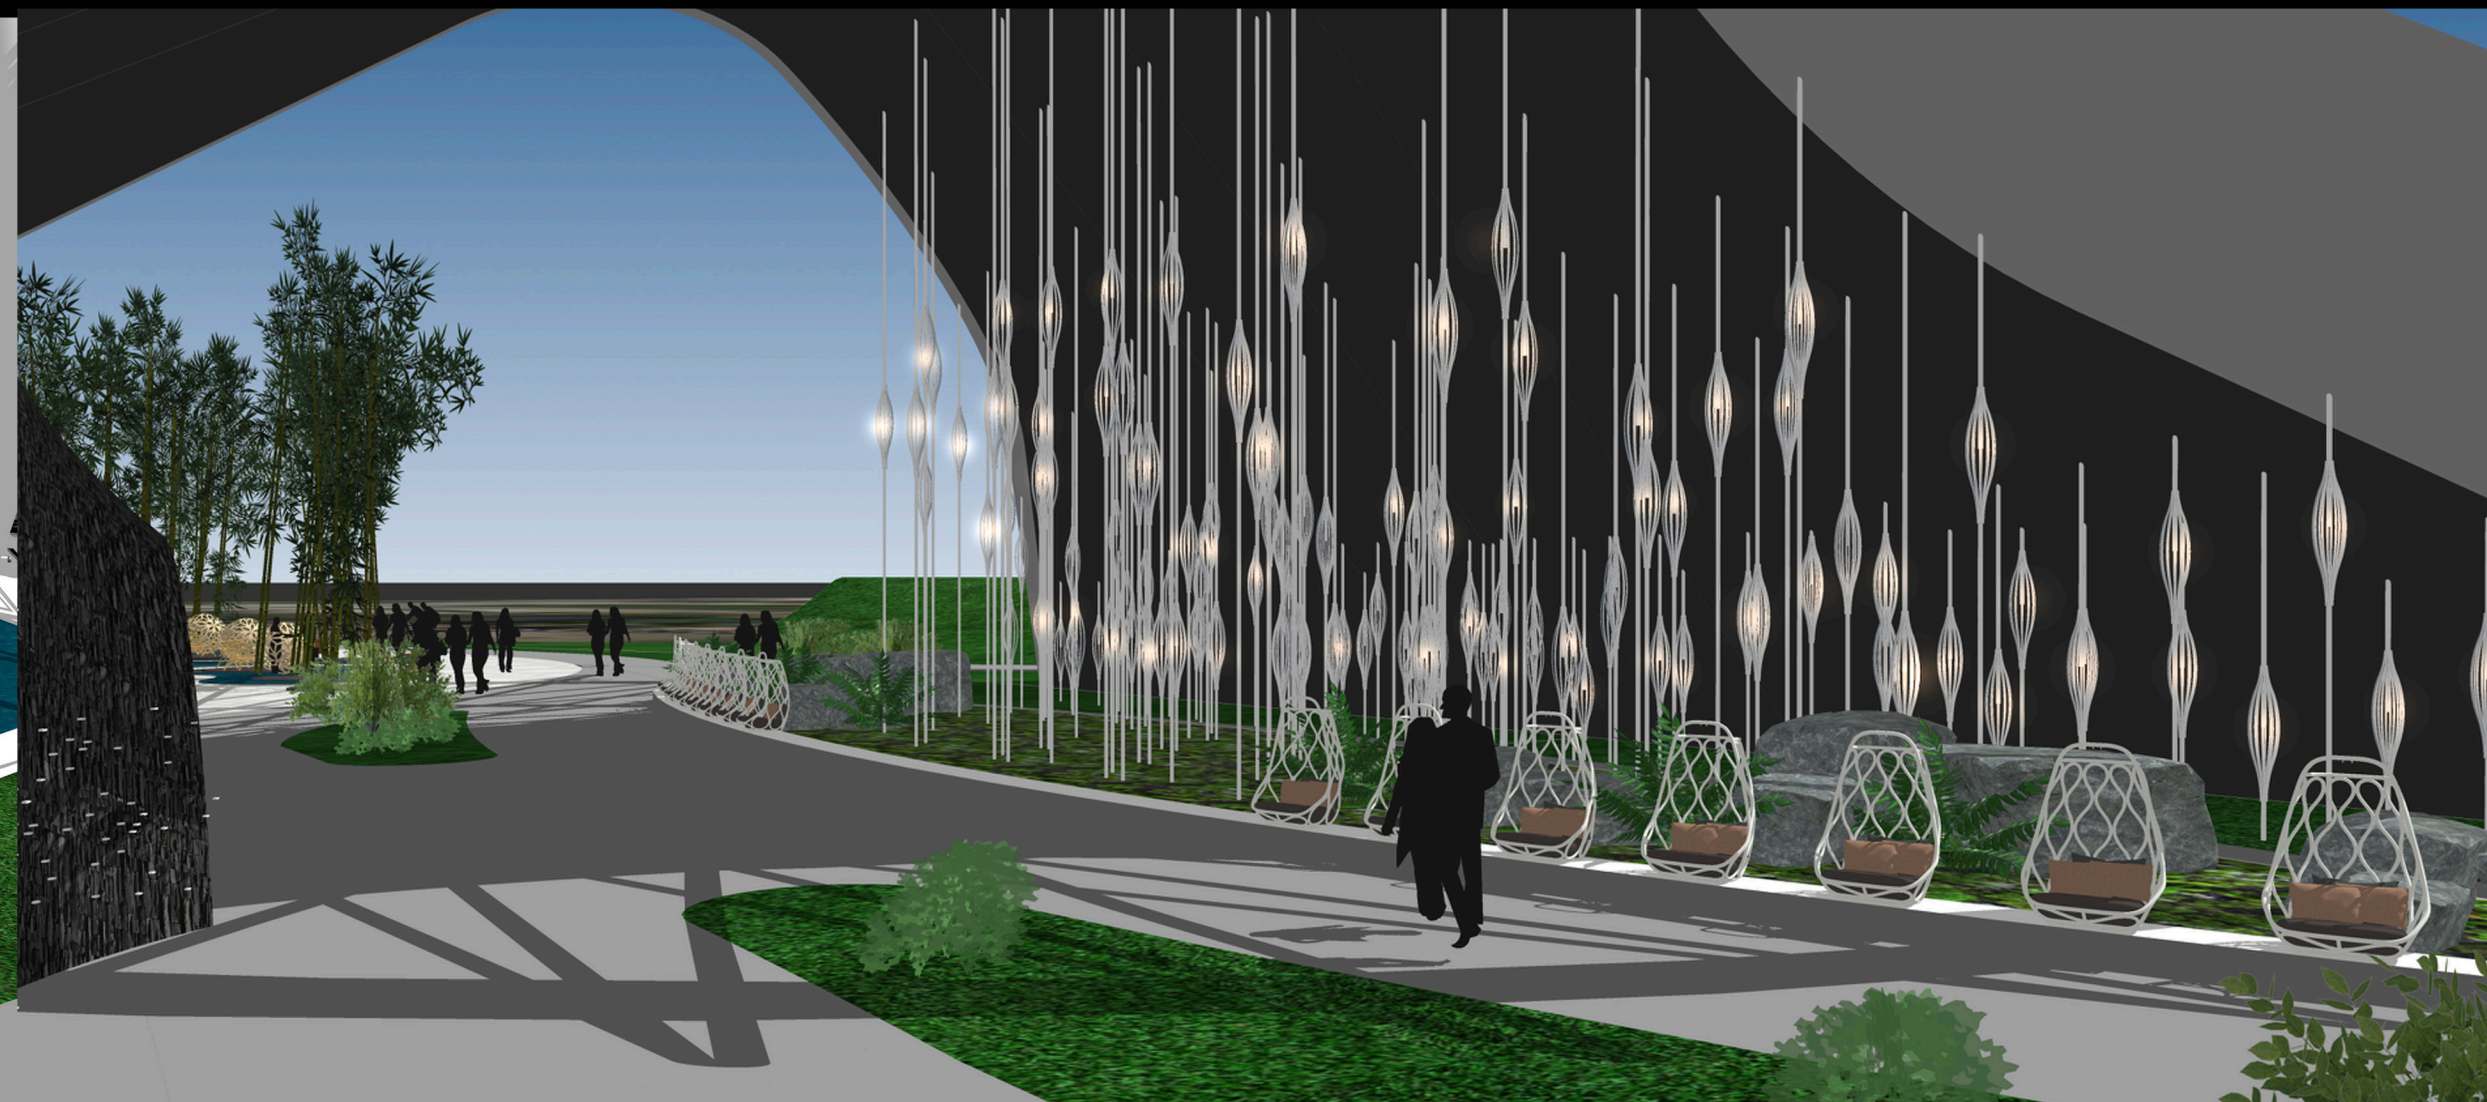

## Design

During the day, shadows dance across the surface. At night, projection mapping creates tendrils of light that emanate out from the central megaphone, capturing the ethereal essence of dreams in movement.

## The Under Passage

Beneath the ascending green space, the Under Passage is shady, cool, and meditative. Visitors insert paper slips into rock wall niches expressing their dreams. The enclosed wedge houses concession stands, restrooms, and community spaces.

## The Idea Forest

Lightbulbs hang at varying heights comprising The Idea Forest, symbolically lighting the way to knowledge.

## The Seedling Garden

The Seedling Garden invites the community to bring native plants and create an area that mirrors the diversity of the community, while metaphorically planting their ideas into the earth.
