

WALKING ON SUNSHINE celebrates the natural beauty of the Guadalupe River. Comprising two landscaped objects, Reflections and Dew, Walking on Sunshine will give San Jose its much-awaited beacon of light.

Reflections is a tree-lined park on the West side of Arena Green. Three highly-polished reflective pools bring cool mist and the reflected sky into the lush greenery. The undulating landscape hosts seating areas moulded into the earth.

Dew is a 200' timber structure that contains double helix spiral ramps elevating visitors over the city. In the heart of this iconic space suspends the world's largest wind chime.
