

Idiosyncratic Icons

Technology constantly pushes the boundaries of the real into a world of the fantastical. Idiosyncratic Icons reflects on the innovation of Silicon Valley, celebrating its ingenuity in an unexpected way. Today's icon has become less about scale and more about creating a dynamic experience. The layering of landscape and built structures create a distinguished space for the community to enjoy. Shimmering, iridescent colors and vibrant vegetation come alive during the day, while their illumination at night suggests something surreal. Light, nature and architecture seamlessly merge to create a playful refuge for its inhabitants and a new environment within the city.
