Project Summary

In order to create a piece of architecture that inspires the world, one must think of it as art. To express a multitude of ideas and interpretations through a medium that can reach people from all walks of life. It is then, and only then, that one can truly capture a sense of wonder and reverence for our planet. This regal pyramid emanates an aura of power, one that can conquer any qualms with ease. The human quest for knowledge and understanding is endless, but it starts with courage.
