

## “@” Connects Everyone and Everything!

For San Jose there is no more iconic an image than the “@” (At Sign) representing the universal reach of technology and symbolizing the successes of Silicon Valley.

An elegantly designed multi-tiered wood and glass structure, the “@” on the West Pavilion emerges from within the parkland by day and is dramatically lit at night. The equally affecting “e-w@lk” landscape unfolds across the East Pavilion.

Together, the “@” and the “e-w@lk”, is a gift of architectural, educational, experiential and personal connection from a city of great accomplishments to the world it has so greatly influenced.
