

The story of San Jose started along the rivers in the past. These stories have been divided along the mother earth as pieces by the river. The design is not only an iconic structure, but also creates **One Park** as **One Big Story**- the pride of San Jose embodied in a confluent community destination.

The motivation of the gateway is a tulip flower whose meaning represents **Perfect Love**. The gateway, **RISING ARCH** is also the symbol of city of San Jose and represents the unique spirit and multi-cultural attitude toward an innovative destination. Visions of the design will change depending upon the viewer's location just as each individual looks at their own destination like the RISING ARCH shines at night.
