**Humankind making the synergy between the nature and the technology**

Vertical gardens and bio-receptive walls covering the towers are cleaning the air and the rain water.

Between the towers there is open air space – human silhouettes are recognizable from every point of view .

That 'negative space', the term used in art terminology, is in fact the positive space – it is our human dedication to rectify the environmental situation by all possible means.

Landmark is recognizable as something which does not exist anywhere in the world, and yet it has that timeless presence - as if it was always meant to be there.
