

INSPIRED BY SACRED GEOMETRY SUSTAINED BY NATURAL ENERGY A PORTAL FOR HUMAN IMAGINATION

MATERIALS

- 01 - CAST GLASS (MADE FROM RECYCLED GLASS)
- 02 - STAINLESS STEEL
- 03 - LED LAYER FOR SPECIAL EVENT LIGHTING AND PROJECTIONS THROUGH THE GLASS
- 04 - INSET GLASS (GROUND)
- 05 - STONE
- 06 - RECYCLED MATERIALS AS FAR AS IS POSSIBLE, egs: ASHCRETE/FERROCK/TRANSPARENT CONCRETE/PLASTIC/WATER BASED ACRYLIC FIBRE/GRC

ELEMENTS OF EON

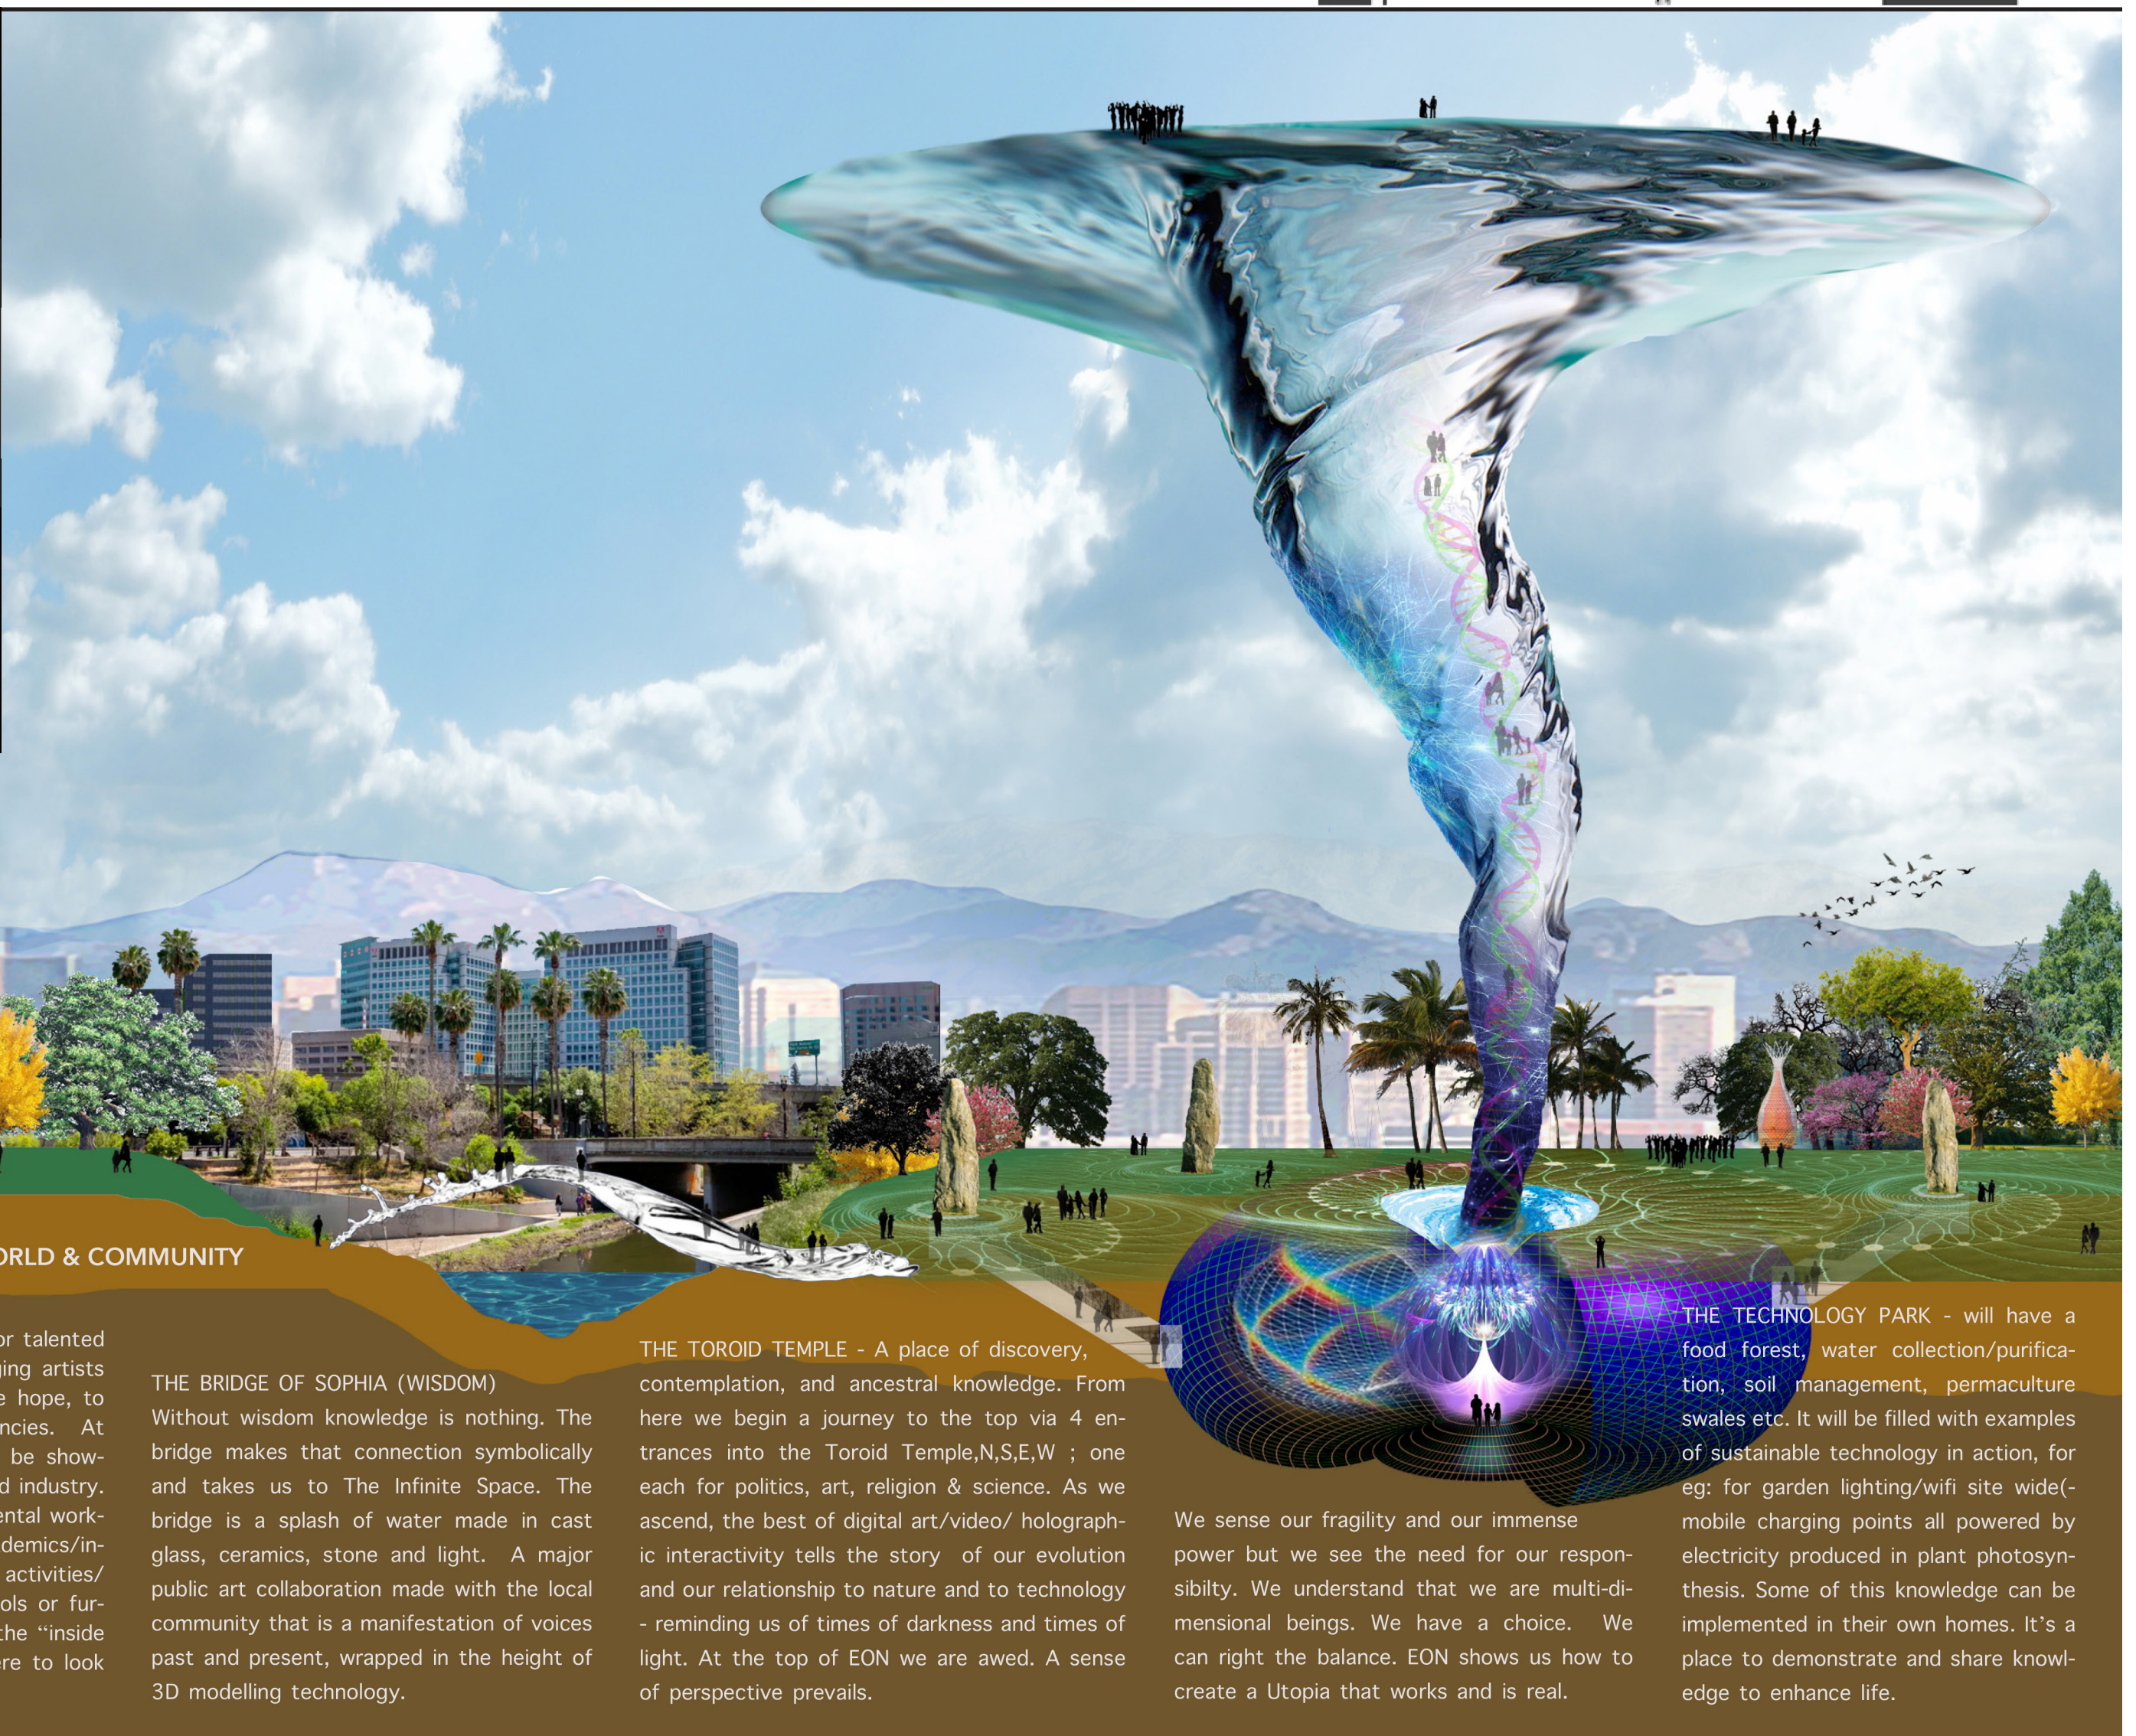

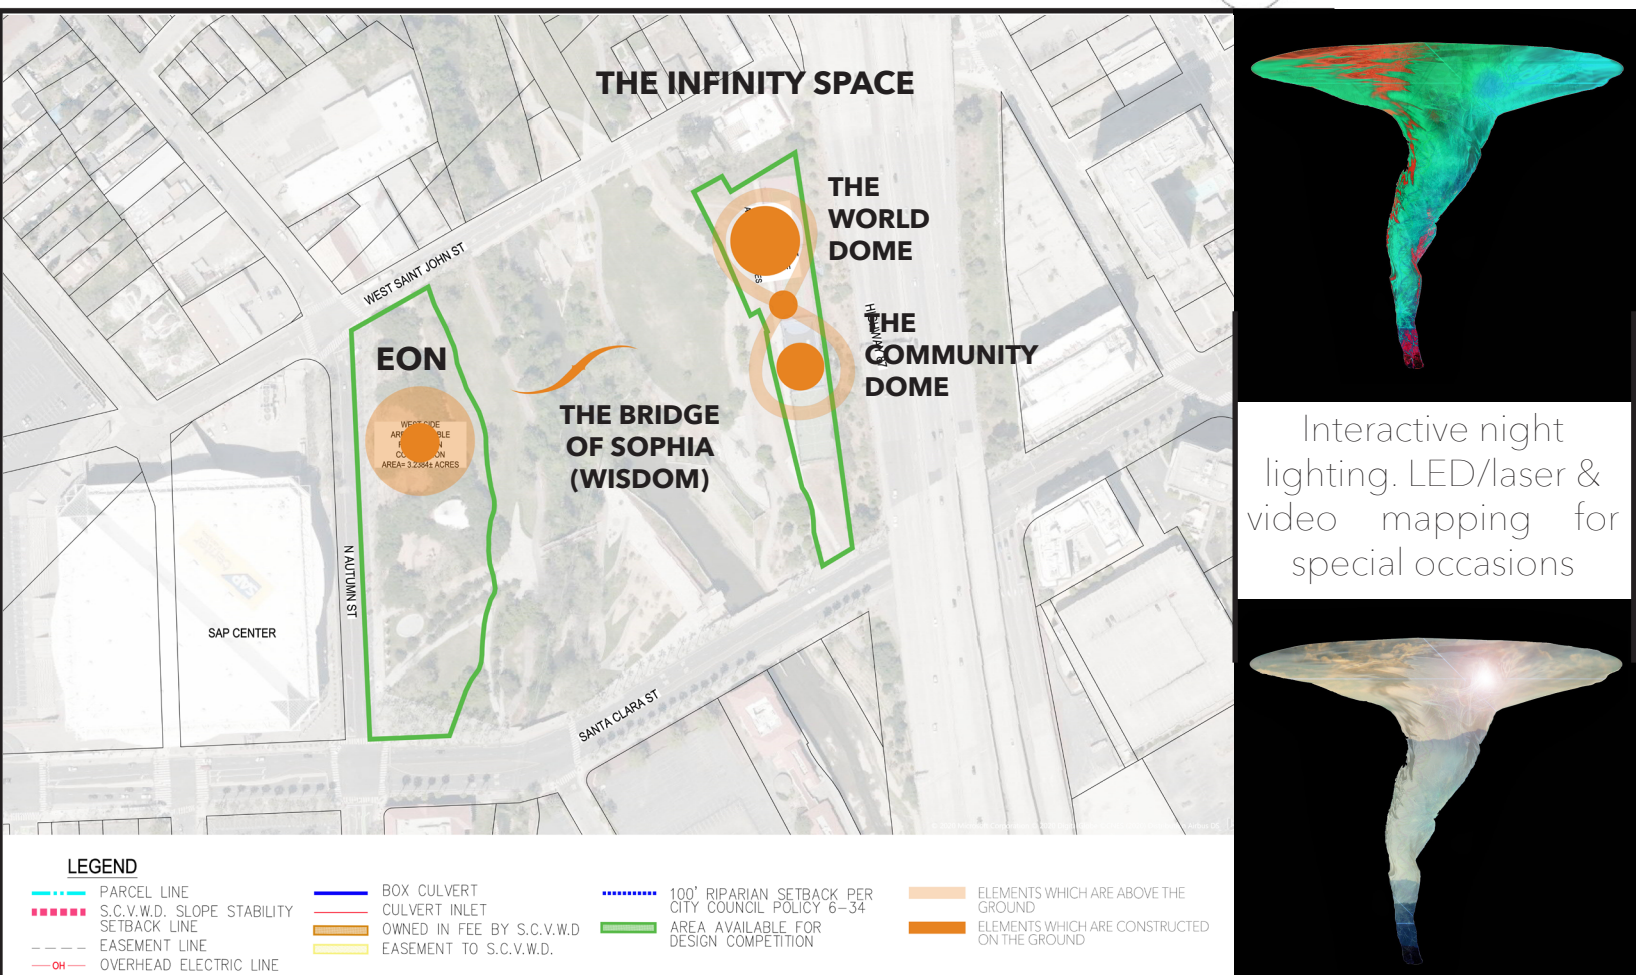

- 07 - WIND POWER GENERATION
- 08 - GLASS RADIATION ENERGY CAPTURE
- 09 - 360° SOLAR POWER CAPTURE
- 10 - GEO THERMAL CAPTURE
- 11 - REFLECTIVE LIGHT/LASER SYSTEM
- 12 - WATER CONDENSATION/COLLECTION
- 13 - FOUR ENTRANCES (N, S, E, W)
- 14 - DOUBLE CHAMBERED TORUS OHLONE TEMPLE
- 15 - MAGIC CARPET RIDE (ESCALATOR/DOUBLE HELIX STAIRCASE)
- 16 - STANDING STONES AT EACH ENTRANCE
- 17 - URBAN FOREST - HEALTH/WEILL BEING
- 18 - SCHAUBERGER WATER PURIFICATION SYSTEM & FLOOD CONTROL
- 19 - 3D VIDEO CYLINDERS
- 20 - STRAIN GAUGES TO CAPTURE FOOTFALL KINETICS FOR BIO-FEEDBACK INTERACTIVITY WITH ACOUSTIC HOLOGRAMS
- 21 - PLANT PHOTOSYNTHETIC ELECTRICITY FOR FREE SITEWIDE WIFI. WILL ALSO SUPPLY GARDEN LIGHTING & RECHARGING OF MOBILE PHONES
- 22 - HEAVE COMPENSATORS TO CAPTURE KINETIC ENERGY OF EON

ACTIVATION SITES

- 23 - FOOD FOREST/PERMACULTURE
- 24 - BRIDGE OF SOPHIA
- 25 - THE WORLD DOME
- 26 - THE COMMUNITY DOME
- 27 - INFINITY AERIAL SCULPTURE

OTHER: LANDSCAPING/TECH

- 28 - SCHAUBERGER FLOOD CONTROL SYSTEM
- 29 - THE FIBONACCI GARDENS
- 30 - TINY TOT PLAY AREA TO BE ENHANCED & INCORPORATED INTO THE FIBONACCI GARDENS
- 31 - INCORPORATE AND IMPROVE LANDSCAPING AROUND EXISTING ASSETS (VET MEMORIAL, SKATERS, WEAVERS GIFT, TRIBUTARIES MONUMENT, etc)
- 32 - RAIN POWER
- 33 - WATER RE-VIVIFICATION/PURIFICATION PROCESSING PLANT
- 34 - RIVER WATER IRRIGATION SYSTEM
- 35 - PERMACULTURE SWALING

WORLD DOME: A conference/forum/show center where the world's leading artists, AI & IT wizards, philosophers, entrepreneurs, politicians and thinkers gather to influence one another, explore joint projects, network and showcase creativity in sustainable tech development. There will be "state of the art" theatre/exhibition space, restaurants, Silicon Valley merchandise, and crucially, subsidised "Incubator" spaces for emerging talent from all over the world.

COMMUNITY DOME: Demonstrating true sustainability in all its forms. Conscious commerce entails nurturing local community to create legacy for the future if success is to be sustainable. There is a need for an Ohlone Museum, a market space, a community centre with theatre space for music/art/dance, health & well being classes, child care, out reach programs/retraining/apprenticeships for kids, small business advice, creative workshop events - narrowing the divide between different demographics.

INCUBATION STUDIO SPACES for talented Phd IT & AI students & emerging artists to develop their ideas and, we hope, to collaborate during their residencies. At the end of which there would be showcase presentations to peers and industry. There would also be developmental workshops held by universities/academics/innovators as well as educational activities/seminars for kids in local schools or further afield. This could become the "inside the industry's" secret for where to look for the next big thing :)

THE BRIDGE OF SOPHIA (WISDOM)
Without wisdom knowledge is nothing. The bridge makes that connection symbolically and takes us to The Infinite Space. The bridge is a splash of water made in cast glass, ceramics, stone and light. A major public art collaboration made with the local community that is a manifestation of voices past and present, wrapped in the height of 3D modelling technology.

THE TOROID TEMPLE - A place of discovery, contemplation, and ancestral knowledge. From here we begin a journey to the top via 4 entrances into the Toroid Temple,N,S,E,W ; one each for politics, art, religion & science. As we ascend, the best of digital art/video/ holographic interactivity tells the story of our evolution and our relationship to nature and to technology - reminding us of times of darkness and times of light. At the top of EON we are awed. A sense of perspective prevails.

We sense our fragility and our immense power but we see the need for our responsibility. We understand that we are multi-dimensional beings. We have a choice. We can right the balance. EON shows us how to create a Utopia that works and is real.

THE TECHNOLOGY PARK - will have a food forest, water collection/purification, soil management, permaculture swales etc. It will be filled with examples of sustainable technology in action, for eg: for garden lighting/wifi site wide/mobile charging points all powered by electricity produced in plant photosynthesis. Some of this knowledge can be implemented in their own homes. It's a place to demonstrate and share knowledge to enhance life.
