

## Project Statement

San Jose is the home of agricultural technical and contributions to business, charity and education, space travel and more.

The Campanile represents the light of hope generated from the grace, love and kindness of members of the community. There is a computer screen on each side of the tower. The computer is the perfect communicator since it too was the beneficiary of inventions of many in the San Jose area.

The Campanile lights the pathways of this site the people of the San Jose area continue to do for all the citizens of the world.
