

Titled "Unity and Individuality", is a symbol that celebrates Humanity. The Double Helix diagram of Deoxyribose Nucleic Acid is a mathematic masterpiece while being one thing every race, creed, or gender has in common. This inspiration is that the same thing that makes us all human makes us all unique as well. The innovations can be found in its sequence. Visually, this structure mimics the Guadalupe River and Los Gatos Creek Confluence while being a striking configuration from every angle. The circular staircases and pedestrian bridge allows one to experience this spiral wonder from many dynamic angles up close.
