

## ***The Statue of Innovation, Golden Tower of Tomorrow from Silicon Valley***

The Statue of Liberty was a gift from France to the United States and tribute to the beacon of freedom USA represented. This work, gifted to Silicon Valley is tribute to the people and their innovation has created a new age for civilization. The Golden Tower of Tomorrow from Silicon Valley, comprised of 1,033,673 million pyramid shaped hearts, represents the collective innovative spirit of the Silicon Valley. Golden color is symbol of honor, a permanent landmark of Silicon Valley' spirit.

Entire structure will be made of sustainable copper, lest impact to our environment. The same copper made of Statue of Liberty. Our net zero approach reflect leadership for sustainability. Green plants watered by rain, the cutout spaces of the structure provides amazing shades, reduce wind load, reduce noise, light design respect wild life wellbeing.
