

Ascension Church

with the Self-Sanctified Miraculous Image of Ascension bringing success and good fortune - a symbol of merging of the Silicon Valley and the city of San Jose.

I suggest to build the Ascension Church in San Jose, at the merging point of the Silicon Valley and the city of San Jose, at your chosen location, in the similitude of the Church of the Ascension of the Lord, which was blown up in 1936 in Saint Petersburg (Leningrad), designed by the world-famous architect Antonio Rinaldi, and to place the described below Self-Sanctified Miraculous Image of Ascension bringing success and good fortune in this suggested Ascension Church, so that this Self-Sanctified Miraculous Image of Ascension brings success and good fortune to the residents of the city of San Jose and the Silicon Valley.

In 1936, the Church of the Ascension of the Lord designed by the world-famous architect Antonio Rinaldi was blown up in Saint Petersburg (Leningrad), but a black and white photo of the sketch of the Ascension painting was preserved (this photo can be found on the Internet; as well as in the book *The Lost Temples of Saint Petersburg* by G.V. Gluzhnevskaya).

I asked an artist to colorize a black and white photocopy of the sketch of the Ascension painting, and it turned out that the sketch of the painting colorized by her had a miraculous effect, and also brought good fortune.

The miraculous effect of this image appeared unexpectedly.

Our family received a housing benefit and moved from one room of a communal apartment (without any loans and surcharges) to a separate apartment (apartment in a red brick house, 55.7 square meters, re-planned into a three-room apartment) in a very good district (the municipal district "Chornaya Rechka"), with European-style remodelling, built-in kitchen furniture and household appliances (all this is a documented fact).

It is clear that this Self-Sanctified Miraculous Image of Ascension brings success and good fortune.

In this regard, regardless of this contest results, I want to officially present this Self-Sanctified Miraculous Image of Ascension to the residents of the city of San Jose and the Silicon Valley, so that this Self-Sanctified Miraculous Image of Ascension brings success and good fortune to the residents of the city of San Jose and the Silicon Valley.

The Ascension Church Project is a project of building to be constructed from energy-saving materials, that meets the net-zero energy requirements.
