

## **PROJECT SUMMARY**

This Silicon Valley's landmark is an iconic and meaningful monument. Its icon, "light bulb", formed of many "0"s and "1"s, that reflects the extraordinary legacy of Silicon Valley as the world's epicenter of innovation in computer technology. The dramatic lighting shows the sense of "tech". The tower has a gondola for up to 6 visitors to move along the structure outline for sight-seeing.

The site planning will make a playful and educational place, including a maze with educational feature and a walk of fame which are paved the names and footprints of computer pioneers on for celebrating their contributions.
