

## Project Summary

Confluence Of Two Rivers.

Information is your most valuable resource.

It is the spiral of innovation into which it entered since the late 1950s of the past century.

Liberalism. Functional Diversity: Of Cultures, Religions, Gender, Sexual Tendencies, Races, Nationalities,...

Joining these two elements that already exist and is used to create a Submarine Elevator, which consists of a capsule that is released without ballast and rises suddenly to the surface, and according to the amount of ballast that the capsule has, it is the speed that rises , this according to the tastes and emotions that people want to feel.
