

## Project Summery

The city of San Jose legends in its intelligence, vitality, and fortune. A futuristic city based on the pragmatic style of work. The project seeks to present the confirmed identity and vision aspiration of San Jose through the light tower “The Door of Future”, its unique site feature “river confluence”, and the welcoming public place that inherited the spirit of humanity. It is in a hope to serve as a vehicle towards a new landmark where it become a part of the memory of the city’s history that can be passed to the generations and the world.
