

Cloud Space, San Jose, CA

A light envelope distinguishes a permeable volume. It is filled with light and air. The indefinite, the indescribable. It is open and accessible, inclusive and integrative. This Cloud Space is as a free volume, a platform for users to fill with individual content. The meaning is to be defined by its content - adaptable, transformative and progressive.

The Cloud Space is transformed and informed by transitory events with communal to regional reach to the establishment of XOCA, the Space of Contemporary Art, an annual large-scale art installation, inviting visitors from all over the world.
