

THE ICON OF SILICON VALLEY

An empowering icon glows in the heart of Silicon Valley.

The universal power symbol uses light and design to inspire visitors and residents alike.

The magic extends on both sides of Arena Green, and acts as a convergent spot with places to gather, a museum and scenic views.

Environmentally suitable for riparian habitat, this site offers an opportunity to educate and demonstrate how humans and nature can coexist and thrive together.

A spectacular landmark, it stands for innovation and technology, and how they serve the advancement of humanity.
