- ENABLES SUPPORT OF SMALL CUTS AT THE PERIMETER OF THE TERRACE FROM 2CM UPWARDS
- SIMPLIFIES THE FINISH OF THE TERRACE
- CAN ACCOMMODATE ALL TERRACE SHAPES AND ALL SPACER TAB SIZES

U-EDGE *Patent Pending*

Paving support at the perimeter of the terrace

The U-EDGE is an adaptable edge support that can be used with all ranges of Buzon® pedestals. Due to its design it creates a quick and easy solution to complete the installation at the edge of a terrace. It can be used with any size of spacer tab and all shapes of paving.

How to use our support at the perimeter of a terrace?

The U-Edge is an accessory allowing installation of small cuts of paving (from 2 cm to 14cm) around the perimeter. The small cuts are supported by the U-Edge, which can be screwed in place on the head of the pedestal providing a solid solution.

Spacer Tabs (U-Tabs) 2 mm, 3 mm and 4.5 mm wide can be used with the U-EDGE. By fixing these in the required location, they create a gap between the paving keeping the smaller cuts evenly spaced and holds them securely in place.

U-TABS

2 mm

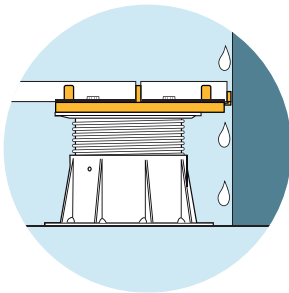

U-TABS

3 mm

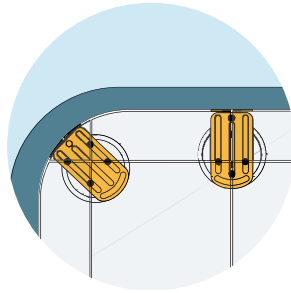

U-TABS

4.5 mm

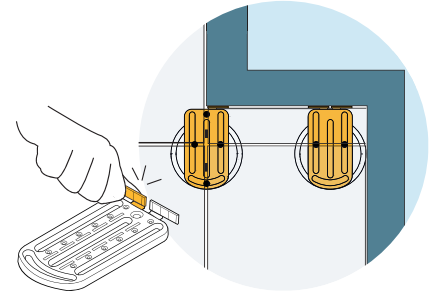

Advantages:

The U-Edge creates a space between the paving slab and wall keeping an even gap and enabling water flow which protects the terrace in the case of heavy rainfall, snow etc.

With its flexible tile retainers, the U-Edge can be installed on terraces of any shape: angular, curved etc. which makes installation easier and more efficient.

It is also possible to remove the tile retainers to adapt the U-Edge to work with all types of terrace layout.

ADDITIONAL INFORMATION:

U-E10/E20 EDGE

We recommend when using the U-Edge that an additional EPDM shim is placed in between the support and the paver. These come in 1 mm (U-E10-Edge) or 2 mm (U-E20-Edge). This guarantees the stability of the paver and will also make finer adjustments on pavers that are irregular ie natural stone.

CHARACTERISTICS

Weight: 0.086 kg

Additional Height : 12 mm

Can only be used with the following spacer tabs:

U-Tabs 2-3 et 4.5 mm

PACKAGING

Qty per box: 24 pcs

Box Weight: 2.28 kg

Box Dimensions: 300 x 250 x 155 mm

Boxes per pallet: 208 pcs

Qty per pallet: 4,992 pcs

Pallet Dimensions: 100 x 120 x 220 cm
