NEW

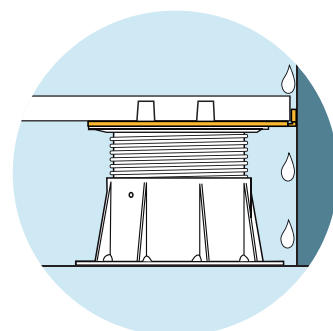

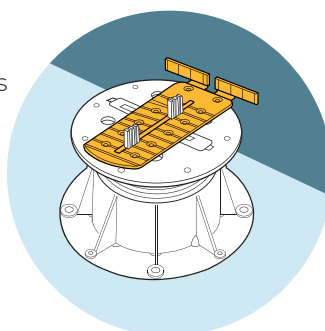

- CREATES A UNIFORM 5 MM (OR GREATER) GAP BETWEEN THE PAVER AND THE PERIMETER
- COMPATIBLE WITH ALL RANGES OF BUZON® PEDESTALS
- CAN BE USED ON ANY SHAPE TERRACE

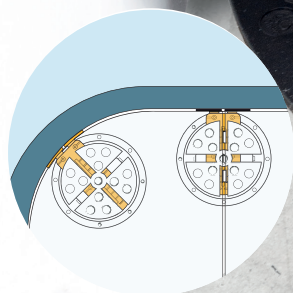

U-WALL *Patent Pending*

Perimeter Spacer

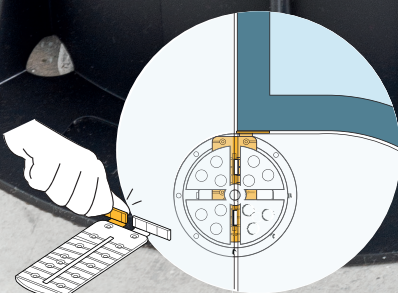

The U-Wall is an accessory that can be attached to all ranges of Buzon® Pedestal. It creates a uniform 5 mm (or greater) gap between the paver and the wall, enabling water flow which protects the terrace in the case of heavy rainfall, snow etc.

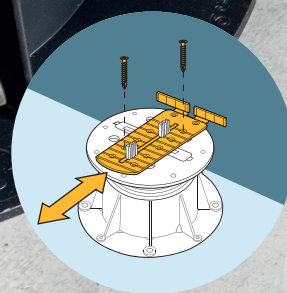

Advantages:

With its flexible tile retainers, the U-WALL can be installed on terraces of any shape: angular, curved etc, which makes installation easier and more efficient.

It is also possible to remove the tile retainers to adapt the U-Wall to work with all types of terrace layout.

The U-WALL can be fixed to the pedestal with screws to keep the paving in position. It is also adjustable on top of the pedestal, which allows for an optimal gap depending on the configuration of the terrace.

ADDITIONAL INFORMATION:

COMPATIBILITY

The U-WALL can be used with all ranges of Buzon® Pedestal: PB, DPH and BC.

CHARACTERISTICS

Weight : 0.039 kg
Additional Height: 3 mm
Can only be used with spacer tabs with a **thickness of 6 mm or less.**
