A FOCUS ON ERGONOMICS.

Advanced ergonomics for operators, distinctive design and high energy efficiency make **Evora** a one-of-a-kind display capable of offering an unprecedented shopping experience.

INNOVATIVE DESIGN.

The top display shelf is positioned at the right height to make the work of serving staff easier than ever. This important characteristic helps reduce bending in order to reach products inside. A sliding drawer permits easy access to the lower display level, making Evora exceptionally ergonomic for operators.

EYE-CATCHING TRANSPARENCY.

Perfect visibility over the top and bottom display levels is achieved by totally transparent panelling and shelves. Serving work is therefore easier and customers enjoy a more pleasant shopping experience.

Carefully designed internal lighting ensures an eye-catching presentation that combines style and functionality and communicates product availability in a clear and immediate way.

TOTAL REFRIGERATION.

A fully refrigerated display area and uniform air distribution ensure optimal preservation of the foods on display. Sliding top doors ensure effective closing and excellent insulation.

DISTINCTIVE DESIGN.

Evora's clean, essential lines convey a sense of elegance and order. The distinctive and original design of this display is registered and protected internationally.

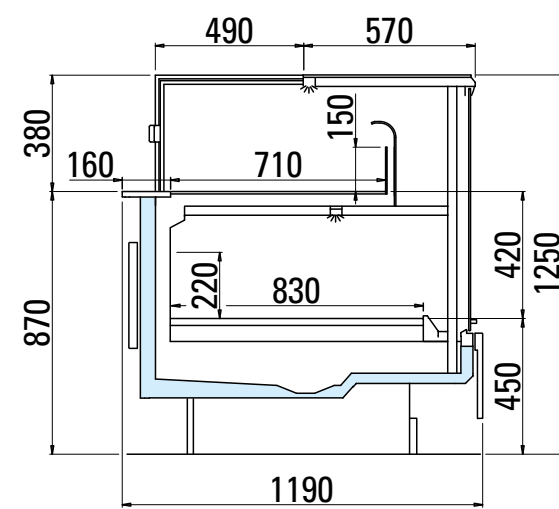

Advanced modularity and the ability to combine more than one unit to create custom layouts allow Evora to meet the display needs of all stores.
